officials were considerable mystified throughout yesterday by the reports of the engagement off Santiago. At the outset there was complete scepticism and a disposition to treat the reported action as a myth. Gradually, as the day advanced the corroborative evidence coming from many quarters, including component immediately provided. The the official announcements from Havana, water question is being solved as to and Madrid, led the officials to concede that some engagement had taken place, to quality." although they did not regard it as a serious one. No bulletins were issued by the department during the day, and Judge Harris Administers, the Oath to at the close of office hours it was stated that no dispatches from Commodore Schley had been received during the day. There is reason to believe, however, that the department received indirect advices through the state department, possibly not bearing out the detailed press dispatches, but sufficient to indicate that an engagement of some kind had occurred at Santiago. The impression obtained that in execution of the general instructions to all United States naval commanders on the Cuban coast to prevent the construction or strengthening of batteries by the Spaniards, Commodore Schley, observing work of this kind going on at Morro Castle, had drawn his fleet up close

enough to stop it. It is not believed for an instant that he made any real attempt to enter the harbor although it is entirely conceivable that while engaged in the task of shelling the shore batteries, finding the Cristobal Colon in range he could not resist the temptation to try a few shots

The statement from Madrid, in what seemed to be almost semi-official form of the acuteness of the financial stringency there, and the plain intimation that the bank of Spain, and consequently Spain, were nearing to the end of their financial resources was regarded at the state department as of more real significance than many of the stories of battles on land and sea that have been coming over the cables for the past few weeks. The effect of this notice may be to hasten the operations against Porto Rico, lest the prize slip from our grasp

through a sudden aed unexpected termination of the war. Evidences of a Forward Movement.

An additional evidence that the actual forward movement of the army and navy was begun was given in the action of the foreign naval and military observers. They have been sojourning leisurely in Washington for some time. Naval Officials Mystified within the last week of the have started for Florida. The British naval and military attaches were the first to leave, and now they have been followed by the German, Austrian, Russian, Swedish, Norwegian and Japanese observers. The government of Norway and Sweden has no less than six military and naval experts to observe various branches of the warfare. They include Commanders Anderson, Dahlgren and Gade, and Lieutenant Gechnuyden of the navy and Captains Wester and Stang of the army. They have all gone For the first time since the beginning

of hostilities there appears to be something in the nature of an official statement of the plan of campaign of the United States government. This was contained in a letter of Secretary Alger to the speaker of the house transmitting certain recommendations, which disclosed the purpose to send 70,000 men to Cuba, 20,000 to start at once and the remainder just as soon as they can be made ready for departure. Then there was an estimate for establishing electrical communications in connection with the army "in Cuba, Porto Rico and the Philippines," showing implied intention to land troops in Porto Rico. Of course all these movements have been auticipated by the press, but a strong element of doubt has existed, and therefore an official statement made, even in this indirect fashion, created a profound sensation here.

The war department has received a dispatch from General Brooke, in con , Washington, June 1. - The naval mand at Chickamauga, setting at rest the reports as to inadequate food and says: "There is no reason whatever for complaint as to the quantity and kind of food furnished the troops in this camp. Some regulars arrived here with food rations only, but defects of this kind are quickly remedied and the vegetable quantity and it has always been good as

> SWORN IN BY A CONFEDERATE. General Fred D. Grant.

Chickamauga, June 2 .- General Fred D. Grant took the oath as brigadier general yesterday, and the ceremony was one of intense interest. The oath was administered by Judge George A. Harris of Rome, Ga., an ex-confederate, and the ceremony was witnessed by a large concourse of people. General Grant expressed great satisfaction that he should have the privilege of assuming the obligations of his office from so distinguished a confederate, and when the ceremony was over a great shout went ap. The first man to shake hands with and congratulate the distinguished officer was Major George L. Gillespie, who was with General Lee when he surrendered at Appomattox.

The scene was one unique in the his tory of the country and the incident created the greatest enthusiasm which broke into cheers and almost shook Missionary Ridge when General Grant said, "Shake hands now, not over a 'bloody chasm,' but on the soil of a country, one in its loyalty to the one

The most interesting feature yesterday was the sham battle, being the Second and Third division of the First corps. Nine regiments composed the attacking and defending armies, 16,000 men in all, and the manouvering became intensely exciting. When columns met in the fierce encounter it was with great difficulty that the enthusiastic young soldiers were prevented by their officers from violence. The movements were reviewed by Inspector General Breckinridge and staff who expressed the greatest admiration for the activity and precision with which the orders of the commanding officers were carried

For the first time since the beginning of hostilities there appears to be something in the nature of an official statement of the plan of campaign of the United States government. This was contained in a letter of Secretary Alger to the speaker of the house transmitting certain recommendations, which disclosed the purpose to send 70,000 men to Cuba, 20,000 to start at once and the remainder just as soon as they can be made ready for departure. Then there was an estimate for establishing electrical communications in connection with the army "in Cuba, Porto Rico Seventy Thousand Men to Be Sent to and the Philippines," showing implied intention to land troops in Porto Rico. THE American navy is sustaining its old-time reputation.

Some one suggests that we ask Cervera, "Is it hot enough for you?"

THE news of mighty battles that never take place is reported from day to day in the metropolitan press.

GOVERNOR MOUNT has succeeded in his efforts to have the war department accept a battalion of colored troops from Indiana.

ALL the men of prominence are not fitted for a military career, therefore it would be unwise to make them all colonels.

THE queen congrabulated Cervera on his successful entering of Santiago harbor. Now she would like to congratulate him on his escape from the harbor.

THE Tipton Advocate, one of the most sturdy republican papers of the state, is now issued twice a week. M. W. Pershing has been the editor and publisher of this paper for twenty years.

THE Globe-Democrat finds that all the authorities agree that Cervera displayed excellent judgment in the selection of a summer resort And yet one usually looks for a cooler place.

THERE are a great many patriots who just now want to be colonels and and majors, who would better enter the ranks and prove their worth as soldiers. To rise from the ranks to a commissioned office is positive proof of military ability. It further shows that the man thus promoted was not just looking for a "snap" when he enlisted.

I was seriously afflicted with a cough for several years, and last fall had a mo e severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor widow, gave it to me, I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had as good health for twenty years.
